Lasts Clients

Belgacom

Position: Senior front-end integrator in a Java developers team

Projects:

- **P21**: It's a media project around Belgacom TV products. I was in charge of frontend integration
- **uCMS**: It's an unified CMS implementation project. I was on lead of some big tasks like 'product display integration' and test management and following.
- **OTC**: After implementation of unified CMS, Belgacom worked on a unified website for Proximus and Belgacom. The project name was One Telco. I was in charge of integration quality check, debug and testing. I was also in charge of Visuals defects analysis.

Skynet Prortal

Position: Senior web integrator

Projects:

- **Email marketing**: Integration in HTML4 and testing
- **Generation website**: Integration of the first version
- **Day to day**: Integration on demand of projects coming from marketing
